

Good Practice

The Bavarian Ministry of Food, Agriculture and Forestry (Managing Authority for RDP) published a guidance paper on „resilience and rural development“ to integrate the resilience concept into RDP measures 2023-2027, specifically into LEADER.

The paper, elaborated by a consortium of experts, stipulates that the way towards more vital and adaptive rural communities is paved by the concurrent consideration of five challenges:

Furthermore, the paper directly links the operational principles of the LEADER method with resilience processes.

Resilience processes can be

Persistence – Resistance – Recovery – Adaptation - Transformation
